Specialist Referral

# Welcome Newsletter

Welcome to Gawler Veterinary Services. Established in 1952 as a mixed practice, we have continued to expand, with 3 clinics now part of our practice. As well as our head office and main practice in Willaston, we also have clinics in Smithfield and Tanunda all of which are focussed on small animal services.

We strive to create a welcoming and friendly atmosphere within our clinics, so all visits can be as easy and stress-free as possible. If you have any suggestions for how we can improve our service, please tell any of our staff.

Aiming to help you keep your pets healthy and happy, we have a full range of preventa-

tive health care products and services, while offering the best possible care for your pet if it does become ill.

As well as a consulting service, we have dental, X-ray and ultrasound machines, hospitalisation facilities, and full surgical facilities. We can also offer home visits and specialist referrals if required. All staff are well-versed in general pet advice, so please feel free to ask any questions you may have.

We also offer an after-hours service that is shared between the four veterinary clinics in Gawler – ring our Willaston head office should you require any help after-hours and you will be referred to a veterinarian who will be able to assist you.

## Opening Times

**Gawler Veterinary Services:**

3 Bright Street, Willaston  
Phone: 8522 2055  
Open Mon-Fri 8am-7pm

## Animal Welfare League:

We are pleased to support the Animal Welfare League by collecting the following items for use at their Animal Shelters:

- Clean Towels, sheets and Blankets
- Food - either cans or dry food
- Safe toys for dogs and cats
- Monetary Donations

## Veterinarians:

### Dr Tony Atyeo: BVSc

Tony has worked at Gawler Veterinary Services since graduating in 1973, so knows the area and clients well. While skin conditions are his special interest, he is a very knowledgeable veterinarian with a lot of experience. He is also very involved with the local community, and is respected throughout Gawler and amongst other veterinarians.

### Dr Tim Lawrie: BVSc (Hons), GCM

Tim comes down from Clare for a couple of days each week to share his knowledge with us. He has a lot of experience with some of the more complicated surgeries performed, and a special interest in knee surgery.

### Dr Michelle Starr: BVSc (Hons)

Michelle came to us direct from university and very quickly settled in to become an important member of the clinic. She has an interest in 'unusual' pets such as rabbits, guinea pigs and turtles, and is also fascinated by eye problems in animals.

### Dr Andrea Bolderson: BVA, BVSc (Hons)

Andrea joined us from another Gawler clinic, bringing her own expertise with her. Now settled in Tanunda, she works at both our Tanunda and Willaston clinics.

### Dr Duncan Borland: BVSc (Hons)

Duncan is the newest member of our practice, but has settled in very well. He has a special interest in birds of all shapes and sizes, as well as an interest in surgery.

## Receptionists:

### Angela Hay:

Angela has made the Smithfield Clinic her own, and established a great rapport with many of our clients in the area. She has an excellent knowledge about general care and feeding of all sorts of pets from dogs to turtles and fish, and even the veterinarians ask her advise in these matters.

### Connie Stanton:

Connie has come to us from the retail and food industry, but has very quickly learnt the ins and outs of a veterinary clinic. A friendly persona and willingness to please has allowed Connie to settle in well to our practice.

# Meet the Staff:

## Nurses:

### Kate Glazbrook:

AVN Cert 4 (ACC)

Kate has recently spent some time in England gaining experience in a wide range of clinics, and has brought this knowledge back to our clinic. She is a very knowledgeable nurse with an interest in surgical nursing.

### Jenielle Burgess: VN Cert 4

The newest member of our nursing team, Jenielle has quickly integrated seamlessly into our team. She has a special interest in horses, but also has two very adorable dogs that are friends with everyone.

### Sue Cowmeadow: VN Training

With a wide menagerie at home, including ducks, chickens, dogs, sheep, and even a pet deer, Sue has experience in raising and keeping many different animals and is willing to share this knowledge. She has a finger to the pulse and likes to keep track of what clients and their pets are up to.

### Leanne Tomlinson: VN Training

With a love of Staffys, Leanne has recently joined us from Roxby Downs and settled in well. Currently completing further TAFE studies in nursing, she is a very knowledgeable nurse.

## Practice Manager:

### Chris Coad:

Chris is the amazing person who keeps the practice running smoothly and all accounts in order. Somehow keeping track of everything going on in the different clinics, Chris still has time to greet any and all border collies coming in.

## The Cats:

At our Willaston clinic, we care for 3 clinic cats that are certainly not shy in inspecting clients and patients, or just relaxing on our reception desk. The black cat, **Jet**, is our official welcomer, spending a large part of her time spread over the front desk and asking for pats and attention, and the rest of her time begging for more food. **Cleo**, our tabby cat, seems to have a split personality, spending a lot of time relaxing and exploring outside, while at other times turns very playful, pouncing and running around like a kitten. The oldest of our cats, **Ritchie**, came to us when his tail was caught in a car door, but this certainly hasn't turned him off motor vehicles – he often enjoys relaxing on a car bonnet in the sun. He is less smoochy than our other cats, but at times will come and enjoy head-butts as his way to make friends.
